**SOUTHWESTERN ELECTRIC POWER COMPANY'S SUPPLEMENTAL RESPONSE
TO EASTMAN CHEMICAL COMPANY'S SECOND REQUESTS FOR
INFORMATION**

Question No. Eastman 2-3:

Referring to the rebuttal testimony of SWEPCO witness Charles J. Locke, page 23, lines 6-9:

- a. Provide the number of entities that made adjustments to their BTMG load reporting practices relative to the total number of respondents to the 2017 SPP survey.
- b. Explain specifically how each entity changed its load reporting practices.
- c. Provide the date when each of the entities changed its respective reporting practice.
- d. Provide the number of survey respondents that did not make adjustments to their load reporting practices.
- e. Provide all workpapers, written communications, and documents that support your responses to subparts (a) through (d) of this RFI.

Supplemental Response No. Eastman 2-3:

- a.-d. Network Customers are obligated to report Network Load to SPP in accordance with the SPP Open Access Transmission Tariff ("Tariff"); therefore, the information available to SPP with regard to Network Load is based upon what is reported, not what isn't reported. Furthermore, the Tariff does not require Network Customers to report Network Load on a disaggregated basis to provide data for each and every generating resource and metering point. Consequently, SPP does not have the information requested in subparts a through d.
- e. There are no responsive documents aside from the SPP Tariff, which is publicly available on SPP's website.
